EYE PROTECTION

ELVEX AVION SF

- Frame is slimmer than the standard specs making it ideal for slender or more narrow facial profiles.
- Wrap-around, uni-lens design offers full panoramic view and excellent side protection.
- Soft, flexible nose bridge minimizes slippage and provides all day comfort.
- Soft, over moulded temples keep eyewear comfortable and secure.
- Lens available in clear, clear anti-fog, grey and grey anti-fog.
- Polycarbonate lenses absorbs 99.99% of harmful UV A, B and C, 180-380nm.
- Ballistic v0 rated* for impact protection, 7x ANSI Z87+ energy. (4x z87+ impact velocity)
- Tested to us military standard mil-prf-31013 impact test.
- Meets ANSI Z87.1-2010+, CE EN-166.

3M SECUREFIT

The 3M™ securefit™ safety spectacle is comprised of a rimless lens and fixed-length temple arm. An integrated side-shield is included for added protection. Temples also feature 3m pressure diffusion temple technology which helps diffuse pressure over the ear to enhance frame comfort across a diverse workforce. This innovative design promotes improved comfort and security of fit.

- Optical class 1 lens suitable for prolonged use
- Design provides excellent coverage and good field of vision
- Offers excellent protection against ultraviolet (UV) radiation
- Lightweight design (18g)
- 3M pressure diffusion temple technology for secure and comfortable fit

PYRAMEX PMXSLIM

- Dual injected temple design includes soft rubber tips for a non-slip fit.
- PMXSLIM™ has a slim fit for smaller facial features.
- Soft, adjustable nose piece generates a cushion for all day comfort.
- Wrap-around, single lens design performs with an incredible 10-base curve, including side protection that extends to the temples.
- Meets ANSI Z87.1 high impact requirements

ELVEX HELIUM 20

- ErgoFit Temples fit the contour of your head for an amazingly comfortable, secure, non slip fit even with ear muffs and headgear
- Extended lens coverage for great protection ad style
- Neutral pantoscopic angle and extended nose bridge to broaden fitting to Asia, African American and Mexican facial profiles
- Distortion-free wraparound polycarbonate lens, offer superior peripheral vision and protection
- Class 1 optics
- Semi-frame design, available in clear hard coat lens and grey
- SuperCoat anti-fog, anti-static and anti-scratch washable coating
- Polycarbonate lense absorbs 99.9% of harmful UV A, B and C, 180-380nm
- Meets ANSI Z87.1-2010+, CE EN-166

PYRAMEX ACHIEVA

- Innovative, sport style safety spectacle.
- Unique rubber temple tips twist around the temples for a stylish and secure fit.
- Curved design of lens extends to protect against airborne particles.
- Built-in brow guard provides additional protection above the eyes.
- Exceeds ANSI Z87.1 high impact requirements
- Code - SP6510S

EYE PROTECTION

ELVEX ACER

- Great protection with floating lens design that allows the frame to flex outward to fit a broader range of face sizes.
- Ballistic v0 rated* for impact protection, 7x ANSI Z87+ energy. (4x z87+ impact velocity)
- Broad and soft rubber saddle nose piece for greater comfort and impact protection to prevent slipping.
- Soft, over moulded temples keep eyewear comfortable and secure.
- Tested to us military standard mil-prf-31013 impact test.
- Lenses: available in clear, amber or grey hard coat, clear and grey with super-coat™ anti-fog.
- Polycarbonate lenses absorbs 99.99% of harmful UV A, B and C, 180-380nm.
- Meets ANSI Z87.1-2010+, CE EN-166.

UVEX PHEOS 9192

- Modern, fashionable safety spectacle design
- Duo-spherical lens with Uvex supravision lens coating technology
- Rimless spectacles with wide field of vision
- Permanent anti-fog on the inside
- Extremely scratch-resistant on the outside
- Completely metal-free

BOLLÉ RUSH +

The rush + small adopts an ultra-sporty design, is now available in size small, for narrower faces.

- Upper protection
- Non-slip adjustable bridge
- Platinum coating
- Co-injected ultra-flexible temples

UVEX U-SONIC GOGGLE 9308 123

- Small, compact low weight goggle
- Compatible with other PPE
- Ergonomic design with soft flexible components – adapts to any facial shape
- High mechanical strength (b: 120m/s)
- Low pressure, wide fully adjustable head strap for excellent wearer comfort
- Indirect ventilation system helps maintain a comfortable climate around the eyes

HEARING PROTECTION

UVEX COM4-FIT CORDED EARPLUG

With its more compact ergonomic design, the Uvex com4-fit is comfortable for wearers with narrower auditory canals. The Uvex com4-fit has a sealed surface, preventing foreign bodies from penetrating the plug. The soft foam offers real comfort, even when worn for extended periods.

SNR: 33 DB(A) H: 33 DB(A) M: 30 DB(A) L: 29 DB(A)

Benefits overview

- Ergonomic shape adapts to the natural shape of the ear canal
- Combines optimal comfort with the highest level of protection
- X-grip technology reduces expansion pressure and therefore increases wearer comfort, even when worn for extended periods
- Easy insertion and removal
- For small to medium ear canals
- High visibility colour for easy visual recognition

UVEX COM4-FIT UNCORDED EARPLUG

With its more compact ergonomic design, the Uvex com4-fit is comfortable for wearers with narrower auditory canals. The Uvex com4-fit has a sealed surface, preventing foreign bodies from penetrating the plug. The soft foam offers real comfort, even when worn for extended periods.

SNR: 33 DB(A) H: 33 DB(A) M: 30 DB(A) L: 29 DB(A)

Benefits overview

- Ergonomic shape adapts to the natural shape of the ear canal
- Combines optimal comfort with the highest level of protection
- X-grip technology reduces expansion pressure and therefore increases wearer comfort, even when worn for extended periods
- Easy insertion and removal
- For small to medium ear canals
- High visibility colour for easy visual recognition

HOWARD LEIGHT FUSION CORDED EAR PLUG - SMALL

Fusion multiple-use earplugs use advanced manufacturing technology to deliver a revolutionary combination of all-day comfort and easy handling. Its flexifirm® core ensures easy insertion into the ear canal and a superior fit all day long. Fusion's patented softflange™ design adjusts perfectly to the ear canal to deliver unmatched comfort and superior attenuation.

Features

- Patented dual material design combines firm core for easy handling with soft flanges for comfort and fit
- Flexifirm® stem is easy to grasp, ensuring easy insertion into the ear canal
- Softflange™ creates comfortable seal in the ear canal for superior comfort and protection
- Unique detachable nylon cord system adapts to virtually any application

BILSOM 303S FOAM UNCORDED EAR PLUG - SMALL

A skilled blend of yellow and white polyurethane foam that feels softer in both your hand and in your ear, but does not feel too tight in your ear canal. It is easier to roll-down, and once inserted properly, resists the tendency to back out of the ear canal - ensuring a tight seal for optimal protection. Its smooth, soil-resistant skin prevents the build-up of dirt on the earplug, promoting proper hygiene.

Features

- Patented polyurethane foam expands gently in the ear canal, reduces tendency to back out of the ear canal
- Smooth, soil-resistant skin prevents dirt build-up, promote proper hygiene
- Tapered bullet-shape design easier to roll-down and insert, adapts more evenly to shape of the ear canal
- Snr 33 ideal for medium/high noise environments

BILSOM 303S FOAM CORDED EAR PLUG - SMALL

A skilled blend of yellow and white polyurethane foam that feels softer in both your hand and in your ear, but does not feel too tight in your ear canal. It is easier to roll-down, and once inserted properly, resists the tendency to back out of the ear canal - ensuring a tight seal for optimal protection. Its smooth, soil-resistant skin prevents the build-up of dirt on the earplug, promoting proper hygiene.

Features

- Patented polyurethane foam expands gently in the ear canal, reduces tendency to back out of the ear canal
- Smooth, soil-resistant skin prevents dirt build-up, promote proper hygiene
- Tapered bullet-shape design easier to roll-down and insert, adapts more evenly to shape of the ear canal
- Snr 33 ideal for medium/high noise environments

PERFECT FIT LADIES EAR PLUG - SMALL

Earplugs are low pressure which virtually permanently eliminates pressure on the ear canal. Comfortable for long terms use. The band is non toxic, non-irritating and durable. Clean with warm soapy water

SNR 31

Available in corded and un-corded

HAND PROTECTION

UVEX RUBIPOR ERGO E5001B

The Uvex rubipor ergo includes a breathable NBR impregnation. This ensures a pleasant temperature regulated wearing feel, even after long periods (E.G. An entire shift).

Characteristics
- Excellent ergonomic fit
- Highly flexible
- Good dexterity right to the fingertips
- High level of breathability
- Size 6 - 10

Applications
- Fine assembly work
- Sorting
- Inspection
- Product protection

UVEX PHYNOMIC WET 60060

The Uvex phynomic wet/wet plus is an all-round safety glove, which is suitable for use in more demanding indoor and outdoor areas of Application. The water-repellent aqua-polymer foam coating is particularly suitable for damp/oily working conditions.

Characteristics
- Excellent dexterity
- Good dry and wet grip
- High level of breathability
- Water-repellent coating and liner
- Size 6 - 11

UVEX PHYNOMIC FOAM 60050

The Uvex phynomic foam is an ultra- light all-round safety glove. The aqua-polymer foam coating is extremely flexible, provides good grip and leaves no trace on sensitive surfaces

Characteristics
- Excellent dexterity
- Excellent dry grip
- Extremely breathable
- Sizes 6 - 11

UVEX PHYNOMIC XG 60070

The Uvex phynomic xg offers the best oil grip in its class. The innovative aqua polymer extra grip foam coating is also particularly flexible and extremely robust.

Characteristics
- Excellent dexterity, best oil grip, durable
- High level of breathability Uvex pure standard
- Free of harmful substances in accordance with oeko-tex® standard 100
- Free from all solvents (E.G. dmf, tea), free from catalysts
- Dermatologically approved
- Sizes 6 - 11

Applications
- Precision work
- Fine assembly work/assembly work
- General maintenance work

POLYTRIL MIX 2232233

Feature
- Black polyamide/cotton knitted glove. Rough black nitrile coating on palm and fingers. Gauge 10. Length : 25,5 cm.
- Size 6 – 11

Benefit
- Comfort the knitting technique helps to obtain a glove that conforms snugly to the hand, with good dexterity.
- The glove offers maximum comfort and added sturdiness.
- The tight knit gives the glove perfect support, limits the penetration of dirt and offers a good touch.
- The ventilated back optimises the glove's breathability.
- The knitted and elasticated wrist gives the glove good support.
- Resistance the cotton polyamide thread offers excellent comfort and provides the glove with effective properties against cuts.
- The nitrile coating at the palm and fingertips provides outstanding abrasion resistance and im-permeability to oils.

SAHARA FLEX GRIP

- Black nitrile coating on seamless polyamide liner.
- Ergonomic design and comfort.
- Synthetic gloves outperform general purpose leather gloves.
- The nitrile coating at the palm and fingers provides outstanding abrasion resistance and im-permeability to oils.
- The tight knit gives the glove perfect support, limits the penetration of dirt and offers better dexterity and optimum handling.
- Super grip with rough nitrile texture.
- Ventilated backing proves the gloves breathability
- Sun fresh offers chemically treated fabrics which allows for breathable and fresh comfort, retards the growth of mould and bacteria, and negates the effects of perspiration.
- Launderable with standard detergent.
- Available in sizes 7, 8, 9, 10, 11

HAND PROTECTION

UVEX UNIPUR 6634

- Moisture-proof NBR safety glove for mechanical applications outdoors
- Very good abrasion resistance with the polyamide liner and NBR coating
- Good grip in damp areas
- Good tactile feel
- Good fit
- Highly flexible
- Sizes 7-11

Areas of application:

- Precision assembly work
- Precision work
- General repair work
- Maintenance

UVEX UNILITE 6605

Ideal for maintenance in mining, engineering and other heavy industries where good grip in wet, oily or greasy conditions is paramount. The seamless 15 gauge nylon liner provides a high level of comfort, along with flexibility and durability. Second skin fit provides maximum dexterity in diverse applications. Uvex unilite 6605 NBR foam coating provides excellent grip, while keeping the hands cool and dry thanks to enhanced breathability. The high degree of flexibility provided helps to reduce hand fatigue.

Benefits overview

- Sizes: 6-10
- Flexible seamless glove material
- Outstanding dexterity
- Good grip in wet, oily and greasy conditions
- High abrasion resistance
- Good mechanical strength
- En 388 (4122)

UVEX UNIFLEX U7020

- Suitable for any applications where risk exists of general injury.
- Allows good grip in wet, oily, greasy conditions.
- Tough and long lasting nitrile coating.
- Palm dip ensures that hand breathes to an extent.
- Nitrile coated for oil and grease resistance.
- Sizes: 7-10
- Industries:
  - Building.
  - Construction.
  - Railways and sheet metal.
  - Metal and plastics.
  - Forestry industries.

UVEX UNIDUR 6649

These mottled grey safety gloves are ideal for both clean and dirty environments. The HPPE fibre ensures good cut protection (level 3).

Characteristics

- High flexibility
- Outstanding dexterity
- High abrasion resistance
- Good cut resistance
- Highest level of durability – a longer lasting solution for challenging environments
- Sizes: 7-11

Applications

- Metal industry
- Automotive industry
- Packaging

UVEX UNILITE 6610F

Features:

- Flexible
- Outstanding dexterity
- Full nitrile butaden rubber (NBR) foam coating
- Good grip in wet, oily and greasy conditions
- High abrasion resistance
- Good mechanical strength
- Complies with EN 388 (4121)
- Size : 6-11

Applications:

- Ideal for use in wet, oily or greasy tasks where grip is needed and areas and tasks that require high abrasion resistance with good grip
- Suitable for use in engineering, maintenance and other heavy industries

UVEX UNIDUR 6659

The HPPE and glass fibres of the Uvex unidur 6659 foam ensure very high cut protection. These mottled grey safety gloves are particularly Dirt-resistant and the NBR foam coating protects against moisture.

Characteristics

- Excellent dexterity
- High abrasion resistance
- High flexibility
- High resistance time
- Excellent cut protection
- Sizes: 7-11

Applications

- Automotive industry
- Metal work industry
- Packaging

HAND PROTECTION

UVEX C500 60492

Uvex c500 foam and c500 wet

Characteristics
- Patented Uvex bamboo twinflex® technology
- Innovative softgrip coating
- Very high cut protection (cut 5)
- Highest-wearing comfort due to Uvex climazone
- Outstanding tactile feel
- High abrasion-resistance
- Sizes: 7-11

Applications
- Metal industry
- Automobile industry
- Transportation work
- Assembly work
- Glass industry
- Maintenance and repair
- Shipping/logistics

UVEX C300 WET 60544

The Uvex c300 safety gloves range sets new standards in protection, comfort, flexibility, dexterity and economy. Our new high-tech product concept with cut level 3 combines all of these properties.

- Patented Uvex bamboo twinflex® technology
- Innovative softgrip coatings
- High cut resistance level 3
- Extremely comfortable thanks to Uvex climazone
- Excellent dexterity
- High abrasion-resistance
- Flexible
- Silicone-free according to imprint test
- Certified according to oeko-tex standard 100
- Length: approx. 27 cm
- Sizes: 7, 8, 9, 10

UVEX PROFASTRONG NF33

This sensitive chemical protection safety glove is suitable for a wide range of applications and has been particularly proven when working with acids and alkalis.

Characteristics
- Anatomic shape
- Good dexterity
- Good grip for wet surfaces
- Outstanding abrasion resistance
- Sizes: 7-10

Applications
- Automotive industry
- Chemical industry
- Food industry
- Laboratories
- Printing industry

UVEX PROFAPREN CF33

High-quality unsupported chloroprene safety glove for use in protecting against a broad spectrum of different chemicals. The silicone-free safety glove provides excellent properties against chemical and mechanical risks.

Characteristics
- Good combination of flexibility and strength
- Resistant to many chemicals and solvents
- Sizes 7-10

Applications
- Chemical industry
- Painting/coating
- Metal work (cleaning)

UVEX IMPACT 1 60598

The perfect glove for the oil and gas industry: Uvex impact 1. Designed for rugged use, with velcro cuff, extra-padded palm. Back of the hand tpr-protectors protect bones and knuckle joints; same applies to the reinforcements on the knuckle joints. High cut resistance and excellent grip properties make the Uvex impact 1 the perfect glove for the toughest environments.

Characteristics
- Flexible and secure grip
- Exceptional abrasion and cut resistance
- Knuckle protection
- Excellent fit
- Sizes: 7-10

Applications
- Tasks with extreme mechanical stress
- Mining
- Drilling
- Tool pushing
- Oil- and gas-industry
- Heavy construction

UVEX RUBIFLEX XG35B

The new, lightweight chemical-resistant safety glove with innovative Uvex xtra grip technology combines protection and grip with exceptional comfort and flexibility. Supported chemical protection safety gloves offer outstanding wearer comfort through comfortable top-quality cotton interlock lining, which regulates temperature inside the gloves.

Characteristics
- Exceptional dry and wet grip
- Multilayer design for excellent resistance time
- Ergonomic fit
- Extremely high flexibility
- Excellent resistance to many chemicals
- Ultra lightweight design
- Cotton lining for superior water vapour absorption
- Sizes: 7-11

Applications
- Chemical industry
- Automotive industry
- Laboratory work

STIMELA XP METAL FREE GUMBOOT

A metal free heavy duty knee length PVC mining gumboot with safety toe protection offering a textile anti-penetration midsole and a fully integrated metatarsal protector. 2.75kg average weight, hard wearing, excellent grip and sole support

Sizes: 04 - 13

FOOT PROTECTION

GUMBOOT INNERSOLE

- The Energizer Woolen Insole is made from highly absorbent wool and treated with an Ultra-Fresh DM-25-WP process.
- This has the advantage of fighting fungal and bacterial infections while minimizing conditions such as Athlete's Foot.
- Sizes: UK 5 – 12

BOOT/ SHOE INNERSOLE

All Sisi footwear comes standard with an energizer top sock that is made from a combination of polyester and wool. It also highly resistant to abrasion allowing it to maintain its shape through the constant rubbing of the foot. Wool is a natural insulator that keeps one cool in summer and warm in winter and offers natural anti-microbial properties, killing off bacteria and reducing foot odours. All our top socks are removable and can be easily cleaned and dried.

All our top socks have further been treated with ultra-fresh to enhance the anti-bacterial properties of the material.

Our top socks feature EVA foam inserts on both the ball and heel area to enhance the comfort to the wearer and increase shock absorption when walking.

GUMBOOT FUR-LINER

For added comfort and warmth in cold environments.

HI-TEC CUSHION FOOT LONG/ SHORT SOCK

Constructed with extra cushioning on toe and heel for added comfort.
The HI-TEC exploration sock provides long lasting comfort with features that include a rib-top which prevents the sock from slipping down and excellent protection.

- Reinforced toe and heel for added durability
- Rib-top ensures that socks stay up and unwanted dirt does not get in
- Relaxed Elastane welt insert for minimum leg pressure and maximum comfort
- 85% Cotton; 8% Spandex; 7% Elastane

SISI ANKLE SOCK

The socks are treated with a Ruco Bach AGP anti-microbial silver based technology which utilizes nano particles of silver chloride. This same compound is applied to the latest wound dressings.

- 95% of bacteria is killed within two hours
- Comfort to the wearer, as the socks do not lead to irritation of sensitive skin
- Harmless to normal skin flora
- Environmentally-friendly
- "Antistatic" fiber refers to the anti-static silver-coated cotton stripes which are knitted into the socks.

Benefits:
The anti-static fiber conducts electricity away from the body, through the sock and into the shoe. The anti-static effect is permanent and does not diminish over time
