

# HAND PROTECTION

GLOVES

**Wonder Grip Thermo Lite Glove - Hi-Viz Orange WG320**

**Size:** 8-10

Wonder Grip Thermo Lite is coated with latex that retains softness at low and below freezing temperatures. It also has a 13-gauge acrylic napped liner that provides effective cold protection. The combination of excellent grip and napped acrylic liner is designed for easy movement and is suitable for a cold environment. Furthermore; Wonder Grip Thermo Lite maintains excellent dexterity and comfort while keeping the hands warm.

**Wonder Grip Aqua Glove WG318**

**Size:** 8-10

A latex glove; double coated with nylon liner and knitwrist cuff. Suitable for wet and cold environments. Excellent grip for dry and wet conditions. Full dip for protection against liquids.

**Wonder Grip Flex Glove WG500**

**Size:** 7-11

Wonder Grip Flex features the original Wonder Grip Nitrile coating; which has a single nitrile coating and 13-gauge nylon liner. Wonder Grip Flex is an excellent; basic protective glove. Moreover; Flex focuses on comfort.

**Wonder Grip Oil Glove WG510**

**Size:** 7-11

A nitrile glove; double coated with nylon liner and knitwrist cuff. Excellent for general use or oily environments. Excellent dexterity and grip; and double dip reduces oil breakthrough.

**Wonder Grip Oil Plus Glove WG518W**

**Size:** 7-10

Wonder Grip Aqua incorporates a 13-gauge nylon liner and is fully coated with latex on the back of the hand; it protects the hands against water. Wonder Grip Aqua provides an excellent grip; whether in dry; wet; or water applications. Moreover; excellent dexterity; flexibility; and comfort are retained

### GLOVES

#### Wonder Grip Oil Guard Glove WG528L

Size: 7-10

A nitrile glove; triple coated with nylon liner and gauntlet cuff. Excellent for ultra-wet or oily environments. Gauntlet cuff provides extra protection; while still maintaining excellent dexterity and grip.

#### Wonder Grip Dex Cut Full Dip Glove WG718

Size: S-XL

With a flexible liner and triple nitrile back coated glove the WG718 is most suitable for working in wet or oily environments especially when requiring protection against cuts. Wonder Grip 718 Dexcut has the highest EN338 cut 5 resistance level and combined with triple back coating makes it the ultimate industrial glove available.

#### Wonder Grip Dexcut Cut 3/4 Glove WG787

Size: 7-11

A nitrile glove; single coated with nylon liner and knitwrist cuff. Glass fibre and HPPE (High Performance Poly-ethylene) provide the cut 5 protection; while spandex ensures elasticity and comfort. For use in environments with high cut risks; while still maintaining excellent dexterity and grip.
