LEMAITRE

TORSION CONTROL

Eagle 8025

Size: 5-13 Black & Grey SANS/ISO 20345

The partner boot to the Hawk shoe the Eagle with punch detail for enhanced breathability is designed with the construction worker in mind. Fitted with an aggressive TPU grip in the arch area of the sole for optimum support on scaffolding and ladders the shoe further incorporates a padded collar and padded bellows tongue for enhanced comfort as well as an anti-toe and heel scuff for enhanced durability.

Falcon 8026

Size: 5-12 Black SANS/ISO 20345

The Falcon shoe with iconic red piping boasts a padded collar and padded bellows tongue for increased comfort to the wearer. The aggressive grip design by means of TPU inserts in the arch area of the sole ensures that this is the perfect fit for those making regular use of ladders and scaffolding.

Hawk 8024

Size: 5-12 Black & Grey SANS/ISO 20345

Designed with the construction worker in mind the Hawk is fitted with an aggressive TPU grip in the arch area of the sole for optimum support on scaffolding and ladders. Incorporating a padded collar and padded bellows tongue for enhanced comfort as well as punch detail in the upper for improved breathability the shoe also features an anti-toe and heel scuff for enhanced durability.

Hercules NSTC Black & Brown & Tan 8048

Size: 5-12 Black/Brown/Tan SANS/ISO 20345

Revered as the go-to boot in the agricultural sector the Hercules Chelsea has found fame amongst farmers in SA. The genuine leather upper ensures durability whilst the Raptor sole unit provides the traction control needed in changing farming terrains. The unique low cut of the collar and elastic side gussets allow for easy foot entry and accommodates a higher bridge making this ideal for the wider South African foot. Available with steel toe cap

LEMAITRE TORSION CONTROL

Hiker Mahogany STC 8039

Size: 5-12 Mahogany SANS/ISO 20345

The Hiker earned its name and has maintained its reputation by allowing wearers to traverse varying and uneven terrain. By providing the ultimate in torsion control the Hiker ensures the wearer remains surefooted with exceptional ankle support wherever they go. The full-grain leather upper adds durability to this boot whilst the padded collar and bellows tongue provide the comfort that is needed. Non-steel toe available.

Kite Tan Brown & Black 8044

Size: 5-12 Black/Brown/Tan SANS/ISO 20345

The partner boot to the Owl shoe the Kite brings style and sophistication to harsh terrains. With conservative eyelets the Kite carries the weight of a durable safety boot offering maximum torsion control on uneven terrain.

Owl Tan Brown & Black 8045

Size: 5-12 Black/Brown/Tan SANS/ISO 20345

The Owl caters to the more discerning individual who requires a stylish leather look with the benefits of a safety shoe. With conservative eyelets the Owl allows a seamless transition from the office to the construction site.

Sentinel Security Boot 8072

Size: 5-12 Black SANS/ISO 20345

The Sentinel caters to those who require both comfort and stability in a security boot. The sole offers maximum torsion control ensuring that the wearer can negotiate an array of uneven terrain and obstacles. The genuine full-grain leather upper with padded collar provides comfort to the wearer whilst the bellows tongue provides defense against debris entering the boot.

Clog STC slip-on 8008

Size: 2-13 Black SANS/ISO 20345

The Clog has been designed to provide superior slip-resistance to those working in kitchens and hospitals. The elastic side gussets ensure easy entry and removal of the shoe whilst the absence of Velcro straps and fasteners increase the shoe's hygienic properties. Fitted with a padded collar for enhanced comfort the Clog is available in an extended size curve and carries a SRC slip-resistance rating.

GALAXY NSTC 8096

Size: 5-12 Black SANS/ISO 20345

The Galaxy has become a favourite for those who require the protection of a boot and the slip-resistance of an SRC rated sole. The padding in the collar ensures added comfort and ankle support to the wearer while the bellows tongue provides superior defense against unwanted debris entering the boot. The D-ring lace-up system ensures easy entry to the boot and swift removal when it matters most.

Limpopo Brown & Black 8560

Size: 2-12 Black/Brown SANS/ISO 20345

Available in your colour of choice the Limpopo merges style with functionality by providing superior grip with its SRC slip-resistance rated soles. Designed with a padded collar and bellows tongue for increased comfort the shoe boasts a full-grain leather upper with Nubuck overlay. The inclusion of a mesh fabric in the collar and tongue ensures enhanced breathability to the wearer.

Security boot STC 8041

Size: 2-12 Black SANS/ISO 20345

Feel protected in our Security Boot with SRC slip-resistance rating that allows the wearer to traverse surfaces in wet and slippery conditions. Manufactured with a full-grain leather upper the padded collar and padded bellows tongue offer enhanced comfort to the wearer. This boot has found popularity amongst security guards in shopping centres due to the grip offered on slanted and tiled surfaces

LEMAITRE SLIP RESISTANCE

Sport / Apollo 8050

Size: 2-12 Black SANS/ISO 20345

The Sport shoe has become a household name at petrol filling stations throughout the country due to its SRC slip-resistance rated soles and anti-static properties. The discerning black design allows this shoe to fit seamlessly with uniform requirements and coupled with its extended size curve the Sport has become a favourite in the industry.

Striker 8037

Size: 5-13 Black SANS/ISO 20345

The Striker shoe with a SRC slip-resistance rating gives piece of mind to those working in conditions where oils and spills are common. Comfort is provided by the padded collar and the padded bellows tongue protects the wearer from debris entering the boot. The classic black stylings allow this shoe to fit in with most outfits making it a popular choice in an array of industries.

LEMAITRE ALL-ROUND SAFETY

Eros slip-on shoe Brown & Black 8010

Size: 5-12 Black/Brown SANS/ISO 20345

This slip-on-slip-off shoe has found popularity amongst those looking for a no-hassle safety shoe. The simple stylings and choice of colour has made this shoe a favourite amongst management personnel allowing them to move seamlessly between the office and factory environments. Fitted on the lighter Gladius sole unit the Eros provides increased slip-resistance and better stability.

Maxeco SMS Tan & Black 8011

Size: 2-13 Black/Brown SANS/ISO 20345

The legendary Maxeco boot has made a name for itself in a number of sectors due to its ability to move seamlessly between varying terrains. The padded collar and padded bellows tongue provide comfort while the extended size range enables procurement to easily cover the size curve of their workforce. Available with or without a steel toe cap with the added choice of a steel midsole the Maxeco boot has become the go-to boot of choice in the presence of general working hazards.

LEMAITRE

ALL-ROUND SAFETY

Maximus 8074

Size: 3-13 Black SANS/ISO 20345

Designed to incorporate technological advancements in the all-round safety category the latest addition to the Maxeco range brings the wearer more in all-round safety. It incorporates a lighter sole unit and increased width in the sole enhances the slip-resistance of the boot providing better stability and reduced shock impact. The inclusion of a reflective insert at the rear of the boot ensures increased visibility in low light.

Maxeco Metaguard 8061

Size: 3-13 Black SANS/ISO 20345

Born from a need for an all-round safety lace-up boot that provides enhanced protection to the metatarsal area the Maxeco boot was updated to include a highly durable metaguard. The Metaguard safety boot provides an extended size curve making it easy for procurement departments to provide the same spec boot for their staff.

Frontier (Robust NSTC) Tan & Black 8091

Size: 2-13 Black/Tan SANS/ISO 20345

The Robust shoe has found popularity in the market due to its corporate inspired design paired with safety functionality. The padded collar ensures comfort and ankle support while the metal rivet and cap enhances the durability and adds sophistication. Available in a choice of black or tan the shoe is available with or without a steel toe cap to suit the wearer's requirements.

Spartacus 8075

Size: 3-14 Black SANS/ISO 20345

The partner shoe to the Maximus boot Spartacus incorporates technological advancements in the all-round safety category to bring the wearer more in all-round safety. It incorporates a lighter sole unit and increased width in the sole enhances the slip-resistance of the boot providing better stability and reduced shock impact. The inclusion of a reflective insert at the rear of the boot ensures increased visibility in low light.

www.saharaworkwear.com

LEMAITRE

ALL-ROUND SAFETY

Turtle (Zeus Metatarsal) 8032

Size: 5-12 Black SANS/ISO 20345

Born from a need for an all-round safety pull-on boot that provides enhanced protection to the metatarsal area the Zeus boot was updated to include a metaguard. This technical work boot includes a permanently attached Polypropylene Metatarsal deflector to protect the Metatarsal bones of the foot from falling objects.

METAGUARD

TOE CAP

LEMAITRE

COMFORT & FATIGUE CONTROL

Explorer 8004

Size: 5-12 Black SANS/ISO 20345

The Explorer safety shoe with extra-wide fitting steel toe cap is recommended for individuals who spend long hours on their feet. The shoe boasts a full-grain leather upper with padded collar and bellows tongue and features easy lacing D-rings for fast removal in an emergency. The parabolic concave curve of the sole cushions impact and adds spring by absorbing the wearer's mass.

TOE CAP

Hunter 8006

Size: 5-12 Black SANS/ISO 20345

The partner to the Explorer shoe the Hunter boot is designed for comfort and recommended for those who spend extended hours on their feet. A durable full-grain leather upper is paired with a padded mesh collar to offer comfort and ankle support to the wearer. The padded bellows tongue ensures defense against debris entering the footwear and the D-ring lacing system allows fast removal of the boot when needed most.

TOE CAP

LEMAITRE

COMFORT & FATIGUE CONTROL

Nomad 8001

Size: 5-12 Black/Brown SANS/ISO 20345

The Nomad safety boot is recommended for those spending long hours on their feet. The full bellows tongue gives utmost protection from debris entering the footwear while the padded collar offers exceptional comfort and ankle support. The Nomad's D-ring lacing system ensures quick release when it matters most and the extra-wide steel toe cap ensures the perfect fit for the South African foot.

Odyssey 8000

Size: 5-12 Black/Brown SANS/ISO 20345

The Odyssey safety boot is designed for maximum comfort to suit workers who spend long hours on their feet. The comfort provided by the padded collar and padded bellows tongue is complemented by the cushion impact provided by the parabolic curve in the sole. The reflective Ghillie lacing loops enhance the visibility for those working on roads and at night and the double stitching of the leather upper adds extra strength to enhance the durability of the boot.

Outeniqua Brown & Black 8013

Size: 5-12 Black/Brown SANS/ISO 20345

Stand for extended hours with the Outeniqua boot offering extreme comfort and breathability. The strategically placed mesh fabric assists with ventilation and aids in keeping feet cool in warm environments. The reflective Ghillie loops enhance the visibility for those working on roads and at night and the parabolic concave curve in the sole cushions impact and adds spring by absorbing the wearers mass.

Quest Brown & Black 8002

Size: 5-12 Black/Brown SANS/ISO 20345

The Quest safety shoe offers superior comfort for wearers who spend long hours on their feet. The fashionable double stitched upper with metal rivets provides extra strength and durability while the padded collar offers enhanced comfort and ankle support. The sole has the inclusion of a parabolic concave curve to cushion impact and add spring by absorbing the wearer's mass.

FURLINERS 1990

Size: SML WHITE EN ISO AS / NZS and ASTM

- For added comfort and warmth in cold environments.

PORON PAD CUSHION INSOLES 1995

Size: 5-12 Wool EN ISO AS / NZS and ASTM

- The Energiser Woollen Insole is made from highly absorbent wool and treated with an Ultra-Fresh DM-25-WP process. This has the advantage of fighting fungal and bacterial infections while minimising conditions such as Athlete's Foot.

BOVA FOOT PROTECTION ACCESSORIES

AQUA PROTECTOR ACC10701

Size: 220ml

220ml The easy-to- use spray-on applicator provides protection to the leather uppers of our shoes by repelling water.

FOOT SPRAY ACC12917

Size: 200ml

200ml Our odour control foot spray has been tested to SABS 636:2001 -Bactericidal Efficacy Standards. The easy-to- use spray-on applicator fights against bacterial and fungal infections caused by perspiration.

SMELTER SOX

Color: GREY

Flame retardant yarn Engineered with flame retardant yarn specifically for the hot metal industry. The calf length socks are knitted using specialised flame retardant yarns comprising 70% modacrylic (USA) and 22% fire-resistant rayon (Switzerland) and are reinforced at both the toe and heel. Designed with a fine needle count to create density in the knit to prevent molten matter from penetrating the sock or attaching to the surface (compliant with the SABS 1423-1/1987 flame retardancy requirements category 1).

BOVA SOX

Color: BLACK

Engineered with Anti-static Fibre in the form of silver coated stripes knitted into the socks. The Anti-static Fibre conducts electricity away from the body through the sock and into the shoe. The anti-static effect is permanent and does not diminish over time (benefits determined against test ASTM E 2149-01 mod). Treated with Ruco-bac AGP anti-microbial silver-based technology that utilises nano particles of silver chloride. Designed to destroy 95% of bacteria within 2 hours eliminate body odour allergies and infections of the foot. In addition Ruco-bac AGP is harmless to natural skin flora and is environmentally friendly. (Benefits determined against test ASTM E 2149-01 mod).

BOVA

FOOT PROTECTION ACCESSORIES

FREEZER SOX

Color: DARK GREY

Fibre engineered from imported performance fibres comprising: wool (natural insulator for cold) Dynamix (moisture management yarn designed to move moisture away from the foot) Polyamide and Elastane (to ensure a snug fit). The calf-length socks are padded for additional comfort and built with an elastic band for added stability.

ENERGISER WOOLLEN TOP SOCK

Color: NATURAL

The Energiser woollen top sock is made from highly absorbent 100% wool and treated with an Ultra-Fresh DM-25- WP process. This has the advantage of fighting fungal and bacterial infections minimising conditions such as Athlete's foot.

SPACER

Color: WHITE

Recommended for people with a lower in-step allowing for a more comfortable fit.

DOUBLE PORON / EVA TOP SOCK

Color: YELLOW

The top sock responds to temperature and weight and moulds to the shape of each wearer's foot thereby providing optimum support where it is needed most. It provides dynamic impact compression which gently rebounds with every step. The EVA is bonded to a highly absorbent 100% wool and treated with an Ultra-Fresh DM-25-WP process. This has the advantage of fighting fungal and bacterial infections minimising conditions such as Athlete's foot. The Poron insert is used worldwide for specialised orthopaedic prosthetics and footwear. Benefits: Greater comfort Shock absorption Reduction in fatigue Reduction of aches and pains Increased foot health

SINGLE PORON / EVA TOP SOCK

Color: BROWN

The top sock responds to temperature and weight and moulds to the shape of each wearer's foot thereby providing optimum support where it is needed most. It provides dynamic impact compression which gently rebounds with every step. The EVA is bonded to a highly absorbent 100% wool and treated with an Ultra-Fresh DM-25-WP process. This has the advantage of fighting fungal and bacterial infections minimising conditions such as Athlete's foot. The Poron insert is used worldwide for specialised orthopaedic prosthetics and footwear. Benefits: Greater comfort Shock absorption Reduction in fatigue Reduction of aches and pains Increased foot health

GELONAIR TOP SOCK

Color: BLUE

The revolutionary patented design of the new Gelonair top sock ensures active cushioned comfort for your feet. The Gelonair top sock is moulded from a thermoplastic rubber gel material which incorporates a patented honeycomb design. The combination of both design and material delivers high cushion energy (144 mJ) before and after dynamic compression (such as in walking and running). Due to its memory properties there is only 0.5% compression set and 0.3% compression spread (SATRA test). This results in improvement in vascular microcirculation of the foot due to the cushioning return effect. Bonded to the Gelonair top sock is anti-static fabric consisting of 90% polyamide with 10% anti-static silver thread.

FOOT PROTECTION ACCESSORIES

Sisi Sox

Color: NAVY

The socks are treated with a Ruco Bach AGP anti-microbial silver based technology which utilises nano particles of silver chloride. This same compound is applied to the latest wound dressings. Benefits: 95% of bacteria is killed within two hours. Comfort to the wearer as the socks do not lead to irritation of sensitive skin. Harmless to normal skin flora. Environmentally-friendly Antistatic fibre refers to the anti-static silver-coated cotton stripes which are knitted into the socks. Benefits: The anti-static fibre conducts electricity away from the body through the sock and into the shoe. The anti-static effect is permanent and does not diminish over time.

Sisi Top Sock with Poron

Color: GREY

All Sisi footwear comes standard with an energizer top sock that is made from a combination of polyester and wool. It is also highly resistant to abrasion allowing it to maintain its shape through the constant rubbing of the foot. Wool is a natural insulator that keeps one cool in summer and warm in winter and offers natural anti-microbial properties killing off bacteria and reducing foot odours. All our top socks are removable and can be easily cleaned and dried. All our top socks have further been treated with ultra-fresh to enhance the anti-bacterial properties of the material. Our top socks feature EVA foam inserts on both the ball and heel area to enhance the comfort to the wearer and increase shock absorption when walking.

LADIES SAFETY FOOTWEAR

Daisy DOT-DAISY

SAFETY FOOTWEAR

Teleza Chelsea Boot W003457-021-041

Size: 4 - 13 Black & Brown EN ISO 20345:S1

- Achieve your own personal style with its full grain crazy horse leather upper. Specially constructed with a full moisture-wicking lining to help keep your feet drier, a new improved moulded, padded, and removable sock liner to add that extra comfort to help you perform at work. Help protect your feet with its steel shank, 200J impact resistant steel toe cap and dual-density PU sole. This lace free boot is the perfect choice if you're looking for comfort, a wide fit, style and protection in your working environment.

Razer SP W003454-021

Size: 4 - 13 Black ISO EN 20345 : S1P

- It's a rugged and hardworking safety boot offering an anti-penetration protection at an affordable price. It was specially designed and constructed with a split genuine leather upper (1.4-1.6mm) for increased durability, 4 reinforced non-rusting, durable, metal d-rings, an EVA foam padded collar for added comfort & ankle support, an EVA foam padded bellows tongue that prevents debris from entering the boots, a cambrelle moisture-wicking lining that helps keep your feet drier during work hours and full padded removable EVA sock liner for increased and superior comfort. For added reliable protection we developed an anti-penetration steel plate and wide-fitting, comfortable steel toe cap tested to 200J impact resistance. A ladder grip sole design, oil & acid resistant features and crack-resistant technologies tested to 30000 flex-cycles are just some of the features that makes this the perfect choice for your unique working environment.

Askari Mid W002488-021-041

Size: 4 - 13 Black & Brown ISO EN20345

- Comfort plays an important role in the choice of boot for those who wear them the entire day. This long-wearing boot is designed for your work performance and success. Specially constructed for superior comfort and durability with a bartan-print split leather upper, a padded collar and padded tongue, a full moisture-wicking lining to help keep your feet dry and comfortable during work hours, a new improved moulded, padded and removable sock liner, a steel shank, a 200J impact resistant steel toe cap, an a dual-density PU sole. It's a hard working safety boot offering great stability and is easy on your feet.
